

How Cities Can Absorb Waves of Refugees

By Karen Jacobsen, Tufts University

Many immigrants and the United States are struggling to house new arrivals and the federal government can help cities absorb them. Immigration has become a defining issue in the 2024 elections and a major challenge in many US cities. Over the past several years, wars and armed conflict, violent persecution and desperate poverty have displaced millions of people worldwide and propelled the arrival in the US of thousands seeking protection, mainly at the US-Mexico border.

Large cities such as New York, Miami, Denver, and Boston are struggling to house new arrivals and meet their basic needs. Cities are looking for ways to support these new arrivals—some for a short time, others for months, years, or permanently.

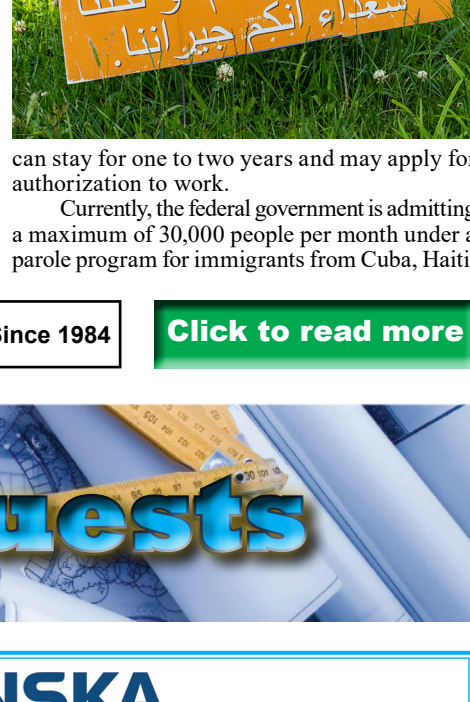

Study forced migration, government responses to it, and how refugees and asylum-seekers integrate into new settings. My focus is on humanitarian arrivals—people who enter the US legally as

asylum-seekers, resettled refugees, or under various temporary protection programs, also known as parole.

In total, the Biden administration has admitted or authorized admitting roughly 1.5 million people under these programs since 2021. Cities need help to cope with these waves of new arrivals. The good news is that with support, refugees and people receiving asylum successfully integrate into life in the US and contribute more to the national economy than they cost.

Entering on humanitarian grounds
People immigrate to the United States for many reasons and receive different types of visas and treatment when they arrive. Here are the main types of humanitarian admissions:

Humanitarian parole
The federal government can give certain groups permission to enter or remain in the US if finds “urgent humanitarian or significant public benefit reasons” for doing so. People who enter through parole programs must have an approved financial supporter in the US. They typically

can stay for one to two years and may apply for authorization to work.

Currently, the federal government is admitting a maximum of 30,000 people per month under a parole program for immigrants from Cuba, Haiti,

SKANSKA
SKANSKA USA CIVIL
IS SOLICITING COST PROPOSALS FROM NEW YORK STATE DBE SUBCONTRACTORS AND VENDORS
Amtrak Design-Build Airo Facilities Ivy City, DC
Amtrak Contract
Bid Date: May 16, 2024

Description of project:
Amtrak Ivy City Yard Maintenance Facility Modification which consists of, and renovate existing, trainset maintenance facilities within Amtrak's Ivy City Yard (ICY) to accommodate trainset activities for existing and new fleet equipment. There will be (4) new Maintenance and Inspection (M&I) tracks in an enclosed open floor concept facility, (2) High Speed Rails, and (6) Service and Cleaning (S&C) tracks under canopy cover; at least two of the S&C tracks must have full length inspection pits. The new facility will be equipped to inspect, test, and perform maintenance, service, and cleaning of fully assembled trainsets. The facility will be designed to accommodate trainsets of various sizes and capabilities including the new Amtrak Airo (Airo) trainsets as well as the new Acela trainsets to be used. In addition to the new M&I trainset facility, the existing High-Speed Rail (HSR) Acela Maintenance facility will be renovated. This project shall include site improvements, pathways and roadway improvements, and storm water mitigation. In addition to design and construction of the improvements and related requirements, the design-build contractor will be required to provide warranties for the work in accordance with the DB documents.

Many bidding opportunities are available: progress photos, survey, cleaning, concrete supply, rebar supply and installation, masonry, structural steel, miscellaneous metals, architectural wall panels, roofing, doors, signage, painting, site work, utilities, paving.

If you are interested in bidding on this project, please contact Skanska's Diversity and Outreach Coordinator: Aislinn.Speranza@skanska.com • EOE/M/F/Vet/Disabled

IS CURRENTLY SOLICITING COST PROPOSALS FROM QUALIFIED AND CERTIFIED DBE SUBCONTRACTORS, VENDORS, SERVICE PROVIDERS
NJ TRANSIT-Delco Lead, County Yard Improvements, Storage and Inspection Facility GC.02 Superstorm Sandy Recovery Program Project
NJ TRANSIT IFB No. 0000004
Bid Date: June 6, 2024

Brief description of work:
The Delco Lead and County Yard Expansion is a multifaceted project that would address the operations, storage, and resiliency needs along the NEC and provide a safe haven for cars in the event of a major storm or flooding event. The project is the reconstruction of the existing Delco Lead track and the construction of adjacent track from County Yard to North Brunswick for the storage of NJ TRANSIT trains in the event of severe weather.

The project consists of 3.20 miles of rail and catenary construction in an area adjacent to the Northeast Corridor called the Delco Lead ("Delco") and another 1.27 miles containing a new electrified rail yard with five 2,200-foot-long storage and inspection tracks along with a 1,250-foot-long Service and Inspection facility building called County Yard ("Yard").

Invitation to Bid for DBE Participation 12%
ALL QUOTATIONS ARE DUE BY CLOSE OF BUSINESS Thursday, May 23, 2024.
Administrative and proposal bid date June 6, 2024, time 2:00 pm. IS CURRENTLY SOLICITING COST PROPOSALS FROM QUALIFIED AND CERTIFIED MBE, WBE, SDVOB, AND ALL LBE SUBCONTRACTORS, VENDORS, SERVICE PROVIDERS
AirTrain Newark Replacement Program—Guideway and Stations Project in the City of Newark, New Jersey
PANYNJ RFP No. 6000001763
Bid Date: August 9, 2024

Brief description of work:
The New AirTrain will replace the existing AirTrain, which opened in 1996, has outlived its useful life, and does not currently provide customers with the modern customer service amenities and service reliability expected of a world-class automated people mover (APM) system. The New AirTrain will include three new stations, and connect to the new modern Terminal A, the Northeast Terminal Two (currently Terminal B), the Airport's new ConRAC facility, and the Northeast Corridor Rail Link Station, linking AirTrain customers to regional rail and light rail networks, and thereby encouraging customers and Airport employees to use public transit to and from the Airport. The New AirTrain will be designed to maximize customer convenience with seamless connections to other forms of transportation and provide modern amenities in AirTrain stations and in vehicles (e.g., high-speed Wi-Fi, count-down clocks, and real-time flight information) to enhance the customer's end-to-end journey.

Invitation to Bid for M/W/SDVOB/LBE Firms: MBE 20%, WBE 10%, SDVOB 3%, and LBE 10%
ALL QUOTATIONS ARE DUE BY CLOSE OF BUSINESS Friday, August 2, 2024.
Administrative and technical proposal bid date August 9, 2024. For further information concerning subcontracting and/or purchasing opportunities, and to register as a subcontractor or vendor, please respond to solicitations@tutorperini.com or contact Arlene McBayne at (914) 739-1908.
