NYCEDC Waterfront Pathways Program

• Become prequalified and competitive against similarly sized businesses for NYCEDC

By NYCEDC

New York City is committed to one hundred percent clean electricity by 2040 and carbon neutrality by 2050. This requires a shift to renewable energy, including offshore wind (OSW). NYC is well positioned to lead the way in the growing OSW industry and has committed to investing approximately \$191 million in the industry over the next fifteen years. And as a key player in New York City's maritime economy through our management of ports, piers, terminals, and ferry landings, New York City Economic Development Corporation (NYCEDC) has direct access to marine and waterfront contracting opportunities.

The NYC Waterfront Pathways Program has been launched by NYCEDC to counter documented disparities in public procurement by increasing opportunities for minority-owned, woman-owned, and disadvantaged business enterprises (M/W/DBEs) in the OSW and waterfront industries.

Firms that complete the NYC Waterfront

Pathways Program will:

- · Gain valuable experience while working on
- transformative New York City projects to meet the city's growing clean energy needs
- Receive on-the-job technical assistance to
- ensure success on site · Access top-notch training developed by
- industry experts • Form networks with established OSW and
- waterfront firms

Get Prequalified to Work on NYCEDC Projects Firms must apply to become part of the Waterfront Pathways List, a pool of contractors with

exclusive access to opportunities on designated projects. NYCEDC offers flexible bonding and insurance requirements as well as fast-track payment to ensure opportunities are accessible to smaller contractors. NYCEDC will prequalify engineering services, construction firms, and suppliers in a wide variety of trades pertaining to waterfront construction and offshore wind including:

- MEP, civil, structural, crane engineering, etc.
- Surveying (bathymetric, geophysical, environmental, etc.)
- · Construction estimating and budgeting
